

Annual Management Report of Fund Performance

December 31, 2006

Galileo Global Active/Passive Fund

Management Discussion of Fund Performance

INVESTMENT OBJECTIVE AND STRATEGIES

The Fund will invest using a combination of a passive investment strategy and an active investment strategy. The passive portion of the portfolio will be invested in 50 largest exchange-listed U.S. stocks and the 50 largest developed-country American Depositary Receipts (ADRs) or global shares listed on major U.S. stock exchanges. These 100 stocks will all be equally weighted. We have retained Shaunessy & Company Ltd. of Calgary, Alberta as the portfolio sub-advisor for this passive portion.

The remaining 40% of the portfolio will be invested primarily in shares of companies around the world that are expected to profit from future economic growth. Galileo Equity Management Inc. is the portfolio advisor for this 40% of the Fund's portfolio. The allocation of this portion of the portfolio among sectors and countries will generally be determined by where the portfolio manager finds the best investment opportunities.

As part of its strategy, the Fund may engage in short selling as a result of special relief it obtained from the Canadian securities regulators and engage in securities lending as permitted by securities regulators.

RISK

Units of the Fund were approved to be sold to retail investors by the securities commissions on November 14th, 2006 via the filing of a simplified prospectus. At the time of the approval, the Fund held a cash portfolio. Between November 14th and December 31, 2006 the Fund invested the 40% of the net assets, representing the actively managed portion. While these securities represent a higher level of risk than the all cash portfolio, there is no difference in risk between this portfolio and what is described in the simplified prospectus.

The Fund did not perform any short selling or securities lending in 2006.

RESULTS OF OPERATIONS

As the Fund became a reporting issuer on November 14th, 2006, only the performance for the period from November 14th to December 31st can be disclosed in this report. The Class A and F units had a return of 2.64% and 2.99% for this short period.

At year end, the Fund is 34% invested in equities. The date that the Fund will be fully invested will depend on the speed at which the Fund grows in size.

RECENT DEVELOPMENTS

This Fund was established on September 14th, 2006 and amended on November 1, 2006. On November 14th, 2006, the 13 provincial and territorial securities commissions of Canada gave final receipt of the Simplified Prospectus for the Galileo Funds, which allowed the units to be sold to retail investors.

RELATED PARTY TRANSACTIONS

Galileo Funds Inc., the Fund's Manager and Trustee, is a wholly owned subsidiary of Galileo Equity Management Inc., which is the Fund's Portfolio Advisor. Galileo Funds Inc. receives management fees based on the average net assets of the Fund. The management fees are used to pay for sales and commissions, the investment management of the Fund and other general administration. For the year ended December 31, 2006, the Fund accrued management expenses of \$433 to Galileo Funds Inc.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past year. This information is derived from the Fund's audited annual financial statements.

Total annual distributions⁽³⁾	0.01
Net asset value at December 31	\$ 12.35

- (1) The beginning of the year for both Class A and Class F units is November 14th, 2006, the date the securities commissions approved the prospectus.
- (2) Net asset value and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period from November 14th, 2006 until December 31, 2006.
- (3) Distributions were reinvested in additional units of the Fund.

Ratios and Supplemental Data

Class A	2006	Class F	2006
Net assets ⁽¹⁾	\$ 153,262	Net assets ⁽¹⁾	\$ 364,498
Number of units outstanding ⁽¹⁾	12,453	Number of units outstanding ⁽¹⁾	29,510

Portfolio turnover rate ⁽³⁾	10.06%	Portfolio turnover rate ⁽³⁾	10.06%
Trading expense ratio ⁽⁴⁾	1.63%	Trading expense ratio ⁽⁴⁾	1.63%

- (1) This information is provided as at December 31, 2006
- (2) Management expense ratio for each class of units is based on the total expenses of the Fund, incurred by or allocated to that class of units for the period shown, expressed as an annualized percentage of daily average net assets of that class during the period.
- (3) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- (4) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

MANAGEMENT FEES

The Fund pays an annual fee of 1.95% of the net asset value of Class A and 0.95% of the net asset value of Class F plus GST to the Galileo Funds Inc. in consideration for the provision of management, distribution and Fund advisory services. This management fee is calculated as a percentage of the Fund's net assets per class and is calculated and credited daily. The Fund is required to pay Goods and Services Tax (GST) on the management fee.

PAST PERFORMANCE

The performance information shown below assumes that all distributions made by the Fund in the period shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns or performance. It is important to note that the past performance of the Fund does not tell you how the Fund will perform in the future.

Year-by-year Returns

The following bar chart indicates the Fund's historical annual returns, which vary from year to year. It shows the percentage change in value of an investment from November 14th, 2006 (the date the Fund first became eligible for purchase by retail clients).

* Return is for a partial year starting November 14th, 2006.
